Philip Morris Award

For months the undergraduate members have been on their toes and have studied and studied in order that they might qualify to participate in the Philip Morris Award for that person who graduates at the head of his class.

Letters have been received stating that the following brothers have qualified for the award:

Robert J. Booher, *Eta*.
Thurston Harrison, *Chi*.
Thurman K. Hill, *Chi Beta*.
Jack E. Maxfield, *Iota*.
Joseph F. Novak, *Chi*.
Lloyd S. Rolufs, *Chi Eta*.

The interest in this award has been more valuable to the members of our several chapters than striving for the money itself. There has been a determination on the part of many men to show the world and our fraternity brothers that Phi Rho Sigma can deliver the goods.

Congratulations and best wishes.
—R. W. E.

Phi Rhos at American Medical Association Luncheon

Robert F. Kile, *Lambda Phi*, writes that nearly 200 Phi Rhos registered at the American Medical Association convention in San Francisco and 120 at the Phi Rho luncheon on June 15. Dr. Benjamin W. Black, *Lambda Phi*, officiated. Other notable Phi Rhos present were Dr. Guy Lane, *Nu*; Dave Wenstrand, *Alpha*; William Anderson, *Iota*, counselor for California, from Los Angeles; and Paul Hanzlik, *Alpha Zeta*, associate counselor, from San Francisco. Jacob C. Geiger, *D. O. A.*, director of public health for San Francisco, dropped in to say "Hello" even though he could not stay, and of course our old professor, "Spicy" Morgan, *Lambda Phi*, was his usual self, and his little talk left everyone with more enthusiasm for better Phi Rho days.

Phi Rhos at the Mayo Clinic

By JOHN C. HOLMAN, Jr., *Delta Omicron Alpha*

In 1888 Dr. William Worrall Mayo and his two sons, William James and Charles Horace Mayo, began to practise medicine as a family group in Rochester, Minnesota. It was always their policy to associate with them other physicians to assist in general work or to develop special fields. Some of these men came as permanent members of the group, while others came for a temporary period. In 1908 the holders of the temporary positions began to be designated as "Fellows of the Mayo Clinic."

In 1915 the plan to make the educational work in the Mayo Clinic a part of the University of Minnesota was consummated by the founding and endowment of The Mayo Foundation for Medical Education and Research, which is a definite part of the graduate school of the University of Minnesota.

Since 1915 the temporary appointees have been designated fellows or special students of the Mayo Foundation.

Among the permanent and temporary members of the Mayo Clinic and the Mayo Foundation there are the following who are members of Phi Rho Sigma:

Chapter . . . News

ALPHA,

Northwestern University.

Alpha's contribution starts with the winter formal dance—formal only in that we wore tuxedos. Everyone had a good time; some of the people were there all of the time, some of them were there some of the time, and some of them—well, we won't tell! Seen there were W. W. Berge and girlfriend, both of whom are short and cute; we were all disappointed that they didn't bring Snow White and the other five Dwarfs. H. "Cachexia" Carter and company were there also; he was a little late in that he had difficulty in avoiding the Michigan Boulevard canines who invariably mistake our boy for a pole. Also seen and heard was J. Reed Babcock, "The One Man Circus," who showed up sans tux and sans femme. Sans fishey, doesn't it? Mr. Wayne Cameron and his Miss America (1902) were probably the nicest looking couple—Mr. Cameron wore a micely (*sic*, Ed.) tailored full dress suit with tan shoes to match.

Norman "Normandie" Schreiber, our big boy Freshman, passed out seagars a few days ago in celebration of his becoming securely tied with the bonds of matrimony—you got a lot of man in that deal, Mrs. Schreiber!

Election of officers took place the other eve and, with the usual ballot-box stuffing, the following brothers emerged with the fate (or fat) of the chapter in their hands: president, Wayne Cameron (*Ibid.*); vice-president, Bob West (I nominated him); secretary, Frankie Solomon (now he can spend all his time writing to Rodman's wife); and last but not least, the office of librarian was as usual given to the brave martyr who's had it for Oh! so long . . . Deus vult. Once a guy is unlucky enough to be elected to the office of librarian, he's sunk. He'll be librarian the rest of his days; the only consoling factor is graduation and writing the chapter news. The librarian this year, however, deserves everlasting praise . . . born of poor but honest (?) parents, he is now the most outstanding man in the chapter and is inaugurating a library fee to erect a statue of himself for the chapter. A replica will be sent to all the other chapters—apply early.

The juniors continue to lead the house in playing poker, hearts, red dog, black jack, and anything that anyone suggests; Peters and Ovitz are winning for a change—chips of course, not money. Pi Kappa Epsilon, National Honorary "Good Guy Fraternity," elected Arnold Wagner and Bill Daniel (juniors) and Wayne Cameron, the Sophomore Social Salep, to their society.

March graduation opened up a few holes in our line—we lost "Herr Looie" Nowack, James H. Cooper (the Bed-Ridden Senior), and Alexandre "Buzz" Nadeau, the Flying Flamingo. If anyone sees any of the above, please tell him to return my shirts and ties. Thank you.

And now my brothers, I must do like the hemorrhoidectomist: come to an end!

Auf wiedersehen,

Darwin Florea.

DELTA,

Southern California.

On Friday evening, April 1, the chapter held its annual initiation at the California Hospital. Following the ceremonies, chapter members and alumni Phi Rhos present enjoyed buffet supper as guests of the Alumni chapter. The occasion was a very successful one and 20 men became a part of Phi Rho Sigma that evening. They were: Deane Adams, Jack Allin, Ray Allington, Bill Bradley, Nathan Carl, Norman Carter, Jay Crane, John Eissenbeiss, Max Fonda, Walter Green, Jack Hall, Herb Movius, Bill Nesson, Bob Nielsen, Howard Payne, Stan Scofield, Mac Stanfill, Lloyd Stirrett, Laurence Underwood, Jack Wilson.

The chapter has been maintaining its practice of "Fireside Talks" by members of the Alumni chapter throughout the past winter, having one of the doctors speak at each meeting. The fellows feel these talks are of real value and have found them both interesting and instructive. Some of the Phi Rhos in Los Angeles who have spoken to the group at recent meetings are: Dr. Clarence Nelson, Dr. Louis Alesen, Dr. Samuel Ingham, Dr. Samuel Benbrook, Dr. Orv. Witherbee, Dr. Pierre Viole, Dr. A. M. McCausland, and Dr. Harry Merzhon.

VOL. XXXIV July, 1938

No. 5

From the Mail Bag

348 Robie Street,
Halifax, N. S.
April 29, 1938

Dear Editor:

I have been instructed by our chapter to write a note to the JOURNAL indicating our opinion of that publication.

The Editor's task, we all realize, is a hard and often a thankless one, but we feel that the new staff can make great improvement in the paper—certainly there is plenty of scope for it. W. A. Daniel's letter in the January-March issue contained many worth while suggestions, but at the same time it is questionable whether it is desirable that the pages of our JOURNAL should be filled with the type of "news" sent in by his chapter.

With regard to our own chapter, in the past we have been asked to send in more and yet more news. However, in spite of the monthly or more frequent contributions of local chapter news, it is rarely that we see anything about our, or indeed about any Canadian chapter. A paragraph or two usually covers all our Canadian news. That of course may not be all the fault of the editorial staff. At best, however, chapter news is only of local interest; and the paper's worthiness must lie in other contents such as more worth while articles both medical and non-medical which can be of general interest. How about some humor, and some pic-

tures? Cuts may be expensive but pictures and photographs would add greatly to the JOURNAL's attractiveness. Why not a series on the various chapters, with pictures of each chapter house and active chapter members?

Your book reviews are very good and are very useful in indicating worth while reading for our leisure hours, if any. But I am afraid that they and a great deal more of the contents of the present JOURNAL are skipped over by the average brother.

Wishing you every success in succeeding issues, I remain,

Very respectfully yours,

T. A. Laidlaw
Secretary, Alpha Eta

THETA TAU,

University of Minnesota.

As its most recent pledge group, Theta Tau has Hugh Brown, John Cronin and Dudley Hilker of Rochester, Minn.; Lloyd Edwards, Frank Freidmann, Robert Green, Newell Howe and Marsh Perkins of St. Paul; Warren Colton, Gordon Jaek and Fabian McCafferey of Minneapolis; Richard Webber of Duluth; John Fast of St. Croix Falls, Wis.; and Don McCormick of Billings, Mont. Frank Freidmann was elected "spike" leader. Warren Colton is the son of Dr. Warren A. Colton of Alpha Beta chapter. Gordon Jaek is the brother of Dr. James Jaek, an alumnus of Theta Tau chapter.

Recently initiated into Theta Tau were Earl M. Anderson, Joseph D. Carlisle, Howard A. Shaw and John R. Haserick of Minneapolis; J. Webster Raattama of Nashwauk, Minn.; and C. Douglas Adkins of Thief River Falls, Minn.

The fellows at the chapter house have been very glad to welcome alumni in the past, and this fall there have been many around, especially at the time of medical meetings and of football games. Dr. Henry G. Zanger, *Theta Tau* '21, dropped in from San Jose, Calif., to meet his younger fraternity brothers. We'd like to see more like him!

MU CHAPTER,

University of Iowa.

After several weeks of successful spring rushing, Mu chapter ends the year with six fine new pledges. Their names are: Lloyd Sweeny, Robert Monlux, John Shutter, Charles Owen, Charles Gray, Charles Berg-

tholdt. Dr. Bretthauer, formerly of Holstein, Iowa, who is planning to locate in California, and Dr. Rauscher, *Mu* '34, assisted in the work. Both were visiting at the chapter house and their suggestions were very helpful.

The fellows of Mu are satisfied with the number and type of men pledged so far, and are looking forward to the same success next fall.

PSI,

University of Colorado.

We have inaugurated a new system of bi-weekly class dinners held at the chapter house with an after-dinner "fireside" speaker for each one. Our purpose in this is to get some of the men to eat at the chapter house frequently and, by dividing the membership into classes, to get speakers that will talk about a subject pertaining to the interest of that particular group. In this way we feel that we have avoided considerable amount of indifference because many of the underclassmen did not comprehend what the talks were about if they were addressed indiscriminately to the entire membership, assuming that most of the men had had sufficient work in the medical school to have a background of understanding of the subject discussed.

Dr. Ralph W. Donaldson, more than a decade ago, guided our chapter through some very difficult times. He has always done a lot for our group and very recently has taken a special interest in our affairs and has formulated a plan for a financial program that will eventually grow into a fund to retire our mortgage.

We initiated 17 men on February 11, and our banquet was attended by 103. Our alumni have of late years been very active in their supervision of the affairs of the undergraduate chapter and we feel that they have taken a real personal interest in each one of the group. Any chapter that does not appreciate its alumni and welcome its cooperation does not know what they are missing. —E. C. R.

LOS ANGELES ALUMNI.

Harry F. Mershon, *Delta*, secretary-treasurer of the Los Angeles Alumni chapter, reports that one hundred alumni have paid their dues for 1938.

Fraternities Approved

The American Association of Colleges has declared by resolution, as reported recently in a news item in the *New York Times*, that "colleges must recognize as an essential feature a properly organized student group life." However, it continued, the organized groups must recognize their obligations to the colleges and to the student body as a whole.

With the Alumni

(Continued from Page 4)

Arthur L. Van Name, Upsilon, has completed his hospital service at Protestant Hospital, Norfolk, and is located at Center Cross, Va.

Edmund E. Robinson, Upsilon, is doing industrial surgery at Kannapolis, N. C. Dr. Robinson is married and has two children.

William H. Brooks, Chi Alpha, is located at 117 West Duval Street, Jacksonville, Fla.

Lawrence A. Schueler, Eta, has moved from Port Townsend, Wash., to 9615 Brighton Way, Beverly Hills, Calif.

After leaving the Floyd Bennett Naval Reserve Aviation Base, Brooklyn, N. Y., last June, William D. Yavorsky, Mu, took post graduate work in New York Polyclinic Hospital for three months. Since that time he has been studying surgery in Budapest, Hungary, where he will remain until late this fall.

John G. Cullins, Chi Zeta, is with the Veterans Administration Facility at Marion, Ind.

The following Phi Rhos were elected officers of the Alumni chapter: William E. Costolow, president; Carl Mulfinger, vice president; Harry Mershon, re-elected secretary-treasurer; William Nance Anderson, re-elected to the advisory board; Dean Paul S. McKibbin, faculty representative, re-elected. Young Dr. Orville Witherbee, son of the late O. O. Witherbee, was elevated to the post of sergeant-at-arms, and Jack Flynn, active chapter representative, to the alumni board.

It may be interesting to know what we do with the additional money that we collect for alumni dues. In the first place, we get out our news letter and also provide small loans to medical students when they need a little cash in a hurry. As you know, the active chapter does not have a house because we are waiting for the new school to be built. In the meantime, the alumni are renting a hall for the meetings of the active chapter.

MUSIC IN INSTITUTIONS.

By *Willem Van de Wall*, assisted by *Clara Maria Liepmann*. Russell Sage Foundation, New York. \$3.00.

The author was the Dutch harpist under Toscanini at the Metropolitan. He was haunted by the idea that music could alleviate the condition of those in the hospitals for the mentally disabled. This is, of course, not a new idea. The book is the result of fifteen years of work and has a definite appeal to musicians and those interested in the care of mental disorders. The Russell Sage Foundation, the Committee for Study of Music in Institutions and the Bureau of Mental Health and Welfare of the Commonwealth of Pennsylvania cooperated.

THE BOY'S BOOK OF STRENGTH.

BEWILDERED PATIENT.

By *Marian Staats Newcomer, M.D.* Hale, Cushman & Flint, New York. \$1.75. This author feels that humanity can best be served by the patient consulting a physician in his sickness. To which we agree.
